

Quality & Energy Policy

GUZMAN MINERALS belongs to GUZMAN GLOBAL, a family owned company that has been distributing raw materials for the industry since 1939.

Our vision is to supply the best solutions to each customer worldwide, growing sustainably and providing an excellent and innovative service to the industry.

Our values strengthen our commitment to excellence, and the Quality Management System is focused on contributing positively to this objective.

With the mission of satisfying the needs of our stakeholders and continuously improving our operations, the GUZMAN MINERALS team is firmly committed to offering quality products and value-added service.

We have a diversified product portfolio. We design, develop, mill, blend and commercialize industrial minerals and chemical products derived from mining minerals and metal oxides.

Compliance with the Quality and Energy Policy by each employee and collaborator of GUZMAN MINERALS must contribute to achieving our quality and energy efficiency objectives:

- Satisfied customers, meeting their expectations and needs.
- Focus on opportunities, promoting innovation, new products, and technical support.
- Generate reliability among our stakeholders.
- Operations excellence, continuously evaluating effectiveness and improvements of the Quality Management System and energy performance.
- Control risks and incidents, ensuring compliance with laws and regulations, related to both products and energy efficiency, energy use and energy consumption.
- Commitment to society, sustainability, and long-term value.
- Promote the acquisition of energy efficiency products and services that directly impact on energy performance.
- Support activities and design ideas to improve energy performance.

Employees and collaborators adhere to this policy, providing the necessary support to guarantee its correct implementation, foreseeing activities, and resources to achieve these objectives. Guaranteeing this policy compliance and promoting the achievement of the quality objectives will contribute positively to the general objectives and strategy of GUZMAN MINERALS.

FRANCISCO CALOMARDE MOLINA

General Manager
